Experience

Founding Product Designer - Fusepay • Dec 2024 - Present (1 year 6 months)

- Led end-to-end product design for a 0→1 B2B payments platform, simplifying complex vendor payment workflows and architecting a three-tier approval system that improved operational control and aimed to **reduce payment fraud by 50%+**.
- Designed cohesive **consumer and merchant experiences** for a prepaid card ecosystem across **mobile and POS interfaces**, ensuring consistency across transaction journeys and reducing interaction friction between both user groups.
- Mapped complex multi-role ERP workflows across owners, staff, and accountants, translating interconnected inventory, billing, and payment systems into intuitive user experiences with synchronized transactional logic.
- Built and scaled a **cross-platform design system** covering web, mobile, and POS experiences, improving consistency, accelerating delivery, and enabling scalable product development across multiple product lines.
- Collaborated with founders directly, ran discovery, flows, wireframes, hi-fi prototypes, handoff, and design QA, translating founder briefs into shipped product across three concurrent product lines.

UX Designer - Coditas Solutions LLP • May 2022 - May 2024 (2 years 1 month)

- Partnered with product owner, engineers, and stakeholders to **design AI-assisted call-sharing workflows for a B2B sales platform**, validating interaction flows through remote usability testing and iterative prototyping.
- Designed an internal L&D platform from scratch with role-based access control, **improving administrative efficiency by 25%** by centralizing trainer data and freeing trainer time to focus on students.
- Redesigned **information architecture and user flows for a B2B/B2C recruitment platform**, improving accessibility, simplifying navigation, and **reducing client-side support dependency by 80%**.
- Designed an automated cost-model tool for an MNC client, **cutting manual workload by 20%** and freeing analyst capacity for additional projects.
- Built and maintained accessibility-aligned design systems across operational, medical, job-hosting, and shipping domains, ensuring cross-platform consistency at scale.

Product Design Intern - Being Mental Healthcare Pvt. Ltd. • Dec 2021 - Feb 2022 | 3 months

- Designed the web tool used by Mental Health Friends practitioners; contributed to the Android design system and share-sheet UI.

Skills

UX Strategy	Data Visualization	Wireframe	Design Systems
User Research	User Flows	Data-driven UI Design	Pattern Libraries
User Journey	Info. Architecture	Rapid Prototyping	Usability Testing

Tools

- Figma
- Claude Code
- Cursor
- Luma Labs
- Notion
- Linear

Education

B. K. Birla College of Arts, Science & Commerce
Bachelor of Mass Media (Advertising)
CGPA - 6.42/7
